

Thursday, January 29th 2015

Dear Madam/Sir,

Regretfully, this letter confirms that you are being fired of your employment effective immediately.

Unfortunately, research on entrepreneurship education has shown the low impact on the development of students entrepreneurial behavior. Therefore your national government and the EU decided to eliminate all entrepreneurship educators and researchers.

Before you leave, you and your fellow lecturers and researchers will be required to meet our colleagues Cor Noltee and Immo Dijkma of the department of Making & Doing Stuff (MDS). You will conduct an exit experience with one of your colleagues. In doing so you will be able to hand in the dreams, ambitions and best practices of one of your colleagues. All this in order to facilitate the Department of MDS in the making of a new point of view on entrepreneurship education & research.

We want you to know that this layoff is not a statement about your individual work. You have been a dedicated, contributing employee for many years and we couldn't imagine to do the good work without you. But, we will try it anyway.

Please let us know if we can assist you during your transition.

With best regards,

On behalf of your national government and the EU,

Cor Noltee

Immo Dijkma
